

Our Zero Waste Events programme

Many Auckland Council-run events are working towards zero waste, including Ambury Farm Day, CultureFest, the Parnell Festival of Roses, and the Music and Movies in Parks series. Auckland Council is here to support other event organisers to do the same.

Free advice

We can provide advice on reducing waste at your event, support you to complete your waste management plan and how to navigate the world of food packaging.

Free loan gear

You can borrow gear for small gatherings of 100 people, right through to large-scale events of 5000+ people. Gear includes flags and bin covers to help people identify the correct bin, all the way down to reusable plates, bowls and cups.

Free training

We can run training sessions for your stallholders on compostable packaging ahead of the event. We can even attend on the day and train your volunteers how to sort waste and educate others at your bin stations.
